Japanese Aggression Denounced

STRONG WILKE SPEECH

Declaring that the defence of freedom "must be a positive thing," Mr. Wendell Willkie, speaking in San Francisco last night, said: "Hitler has challenged freedom.

Mr. Willkie pointed out that positive defence involves great sacrifices.

He called for aid to China to divort the energies of Japan and for the doubling and redoubling of American aid to Britain.

Additional air and naval bases should be acquired to protect the North Atlantic supply lines and ship and air lane courses in the South Atlantic should be guarded in order to prevent German moves through Spain and Portugal. Mr. Willkie said.

"Totalitarianism thus surrounded and the Nazi flood having reached its full, it will begin to recede. History proves that such forces survive only in expansion." -Reuter.

Germans Compelled Admit failure Of Blitzkrieg

RATEOFADWANCE

"IF THE SLOW RATE OF THE GERMAN ADVANCE CONTINUES, HITLER MAY NOT GET TO MOSCOW BEFORE THE END OF AUGUST," WRITES THE STOCKHOLM "HANDELS TIDNING," QUOTING MENTS MADE BY THE GERMANS.

Much of Russia would then remain to be conquered, adds the newspaper.

Even according to German statements, the rate of progress of the German advance during the last 20 days, is only half that achieved in the previous 10 days.

WOSCOW DEFEATS RAIDERS

The fiercest hail of fire yet heard from Moscow's anti-aircraft batteries met Nazi bombers approaching Moscow on Wednesday night with the object of "blitzing" the Soviet capital for the third successive night.

So effective was the gunfire and the cooperation between A.A. batteries and searchlights tha once again only isolated 'planes broke through the city's outer defences to drop their bombs.

One feature of the three raids on Moscow has been the number of searchlights which the Russians have been able to concentrate on small areas of ٤ky.

Moscow's fire-watchers and fire-fighters again did splendid work on Wednesday night, and yesterday morning all except a the small fires had been ex- yet from Kharkov.-Reuter. tinguished. — Reuter.

Random Bombs

International News says the blitz was held at bay for the third successive night by Moscow's A.A. batteries, and while a number of casualtie, and some fires were admitted, all but "eight or ten" isolated 'planes were repuised.

Military targets escaped damage, and bombs were dropped at random outside the city.

News of operations is confusing but perhaps the situation is also confusing.

Propagandists, says the newspaper, announce the arrival of German mechanised troops at certain places but consolidation by support troops is necessary before capture can be claimed by official communiques, while the Russians behind the advance German troops hold up the support troops.

For instance, Klev was probably reached by some armoured units when announced by the Germans. Afterwards larger German units, probably with much loss, forced their way to Kiev, which is probably encircled now.

Although the encirclement of Kiev was announced a week ago It is not yet in German hands.

Promised Sweep

Similarly the promised giant German sweep from south and north against Leningrad has not materialised, probably because the Russian defence is not so disorganised as the Germans suggest. Even when the Germans have

taken Klev they will be merely on the edge of the Ukrainian granary.

Until they possess Kharkov and its regions the Germans are hardly likely to derive any real benefit from the resources of the Ukraine, and they are a long way

SENATOR BURTON K. WHEELER has posted post-cards to Army officers and men urging them to oppose United States entry into the war.

This was revealed by the Secretary of War, Mr. Henry Stimson, at his press conference in Washington yesterday.

Mr. Stimson declared: "I think this comes very near the line of subversive activities against the United States, if not treason."

The cards went out postage free, Mr. Stimson said. One million cards were printed in the Government printing office but were labelled "not printed at Government expense."

Mr. Stimson continued: "When such appeals are addressed to soldiers, the action crosses the line of what General Marshall called sabotage."

General Marshall (Chief of the Army General Staff) had previously described as "sabotage," attempts to induce officers and men to oppose extension of their active duty.

MOBILISING INDIA'S INDUSTRY

"We can make it" is Indian industry's determined cry.

It is a counterpart to Britain's now femous words "We can take it," declared Mr. Picot, New Zealand's representative on the Eastern Group Council, in Simla yesl terday.

Mr. Picot had just returned from a tour of India's manufactur-

Libya Activity

Heavy dust storms at Tobruk on Wednesday caused a temporary lull in the British offensive patrolling activities in Libya, according to yesterday's Middle communique.

The communique adds: "In the frontier area, however, advanced elements of our mechanised units were again aggressive, ejecting the enemy from several observation points.

"Units of our artillery cooperated with effective fire upon the retreating enemy patrols." The communique reports all quiet in Abyssinia and Syria. -Reuter.

BIRTHDAY MACKET FORBIDDEN

A custom prevailing among some sections of the Chinese residents in Shanghai who cannot make both ends meet is to send out numerous invitation cards to friends and relatives asking them to be present at a dinner party celebrating "posthumously", tho birthday of a dead relative, usually a deceased parent, in order to collect cash gifts from them. It is a racket, for in many cases the celebrants are not sincere in doing honour to the dead persons and knowing this those who are invited usually send gifts without attending the dinner party usually cheaply provided.

Mayor Chen Eung-po of the Greater Shanghai Special Municipal Government is very dissatisfled with this custom. He wants it to be a social taboo among his colleagues and supporters. He says in an order just issued that public servants should set an example by abolishing such a custom. SUNK BY A NAZI RAIDER, losing everything, forced to remain three days drifting in a life-boat were some of the experiences of Miss C. E. M. Gale, who was for a number of years a missionary in China and who has many Shanghai friends made during her stay with Mr. and Mrs. W. J. Hawkings of The Limit, Hungiao Road.

On account of the present situation in China, Miss Gale was unable to return to her mssiionary work in this country and so she offered her services in India. It was while en route to India that the adventures she here describes befell her. Her letter follows:—

What a welcome our rescuers gave us! I've never known such kindness. The Captain gave up his cabin and room to us three women—the officers lent us ciothes up Issac and then had him restorand necessities, for we had absolutely nothing but what we stood in. It meant our going all masculine, for there were no women to help us out. STORM CLOUDS

Storm clouds over the Pacific are no very rare phenomena and it does not follow, therefore, that the crisis that threatens over Japan's further encroachments in Indo-China will develop into the crisis that ends all crises. For the moment, Japan will be more than content with a strategic gain without fighting for it, and if left undisturbed possession, will do no more immediately than consolidate and await a propitious moment (if ever it comes) for proceeding to the next stage of her undisguised expansionist ambitions. From a British point of view, it is more vexatious that Vichy should cover cowardly capitulation by representing Japanese aggression defence against a British menace, than that Japan should be putting! on the screws and following a course that came as' no surprise either to London or Washington or Singapore. ESTIMATES OF THE air strength of Britain and Germany and calculations of aircraft production of Britain, the U.S. and Germany are becoming more and more a popular war-time exercise, writes Ronald Walker, "News Chronicle" air correspondent.

Some time ago I reported the estimates of Mr. T. P. Wright, one of America's aircraft industry chiefs who is consultant to the U.S. National Defence Advisory Committee. He concluded that British aircraft production with the addition of half U.S. output would equal that of the enemy by June of this year and that the Royal Air Force would have the same number of machines as the Luftwaffe by March next year.

More recently Mr. James | types is slower to overtake and Jeuett, President of the U.S. replace the decrease in trainer Aeronautical Chamber of Com- production. merce, said that monthly aircraft ! output of America was nearing that of Britain and Germany, which he estimated to be 1,500. world.

aimost overwhelming numbers.

Leaps And Bounds

Since the war began, and particularly since Lord Beaverbrook became Minister of Aircraft Production in May last, our aircraft output has risen by leaps and bounds. Lord Beaverbrook was able to say that in addition to fitting out the new squadrons of the growing R.A.F. and re-equipping existing units with latest types, a 100 per cent. reserve of operational types has been built

The figure has been criticised on the ground that it is not big enough, and that a dally loss of 3 per cent, would wipe out the reserve in a month. No one can deny that, but it is also true that we now have more aeroplanes, in the supboard, than ever before.

American aircraft are now reaching Britain in rapidly increasing numbers. More than 1.000 operational types have been delivered to the R.A.F. Therefore some examination of Mr. Jouett's statement may do no harm. There is no doubt that his estimate of German production at 1,500 is low. Many people make the mistake of overlooking the fact that these figures of total output cover all types and include training machines.

It is important to note that the American machines already delivered are almost entirely operational types—that is, fighting and bombing aeroplanes, not trainers. But in taking encouragement that American output has reached the 1,500 mark, it should not be forgotten that a large percentage are trainers. A country which is suddenly expanding its air force must have large numbers of training craft. Of the April total of 1,493, only 78 were commercial machines. The percentage of trainers is unknown, but I understand that during the first forces. period of America's aircraft drive the percentage was around 80 per cent. It is has fallen since then and will continue to decrease; but during the next few months it 5. BRITAIN URGED TO ATTACK

Hailing the "no separate peace" agreement signed between Britain and Russia as a wise step clarifying completely the present international situation, and asserting that it is even more forcible than the tripartite agreement signed by the Axis powers, the "Shun Pao" editorially urges Britain to launch offensives, suggesting many ways which help Russia in defeating the Germans. Although the latest pact signed between London and Moscow is not a military alliance. the paper believes that it has put the two countries on the basis of a military alliance.

DEAD MAN'S GLAND GRAFTED

A woman patient suffering from Addison's Disease (anaemia and weakness) was fast approaching a crisis. The doctors were puzzled as to the next step. A 52-yearold man had died just previously. He had been of the same blood group as the woman. It was decided to try the experiment of grafting into her the left adrenal gland of the dead man. The operation was performed. Six days later, the woman left the hospital declaring herself "absolutely well." Now after five months, the woman is living a normal life.

POPULATION OF SHANGHAI

A total of 1,651 230 persons comprise the population in the areas under control of the Shanghai Special City Government according to statistics compiled up to June 30. The area under the control of the Western Area Special Police tops the list with n total population of 282,311 with Pootung taking second place with 198,245 inhabitants.

SHANGHAI MYSTERY SHOOTING

Shot at twice from the back by a lone gunman. Probationary Sergeant (III) V. D. Simagin, 31, a Russian officer attach-Bubbling Well mortally Station about 5.30 wounded p.m. while patrolling between Majestic Road Bubbling McBain Well Road.

He died at the Shanghai Country Hospital without regaining consciousness, an hour after the shooting.

The assailant, believed to be a Chinqse in foreign attire, fired two shots from a pistol at the Russian officer, one bullet which entered the back of his head, making its exit from the right side of his forehead.

The victim collapsed in a heap on the pavement and while a crowd of Chinese pedes'rians gathered the assailant made his escape.

Motive Unknown

A Chinese constable on duty in the vicinity was attracted to the scene by the crowd and immediately telephoned to the Bubbling Well Police station from where a party of foreign and Chinese detectives were sent to the scene.

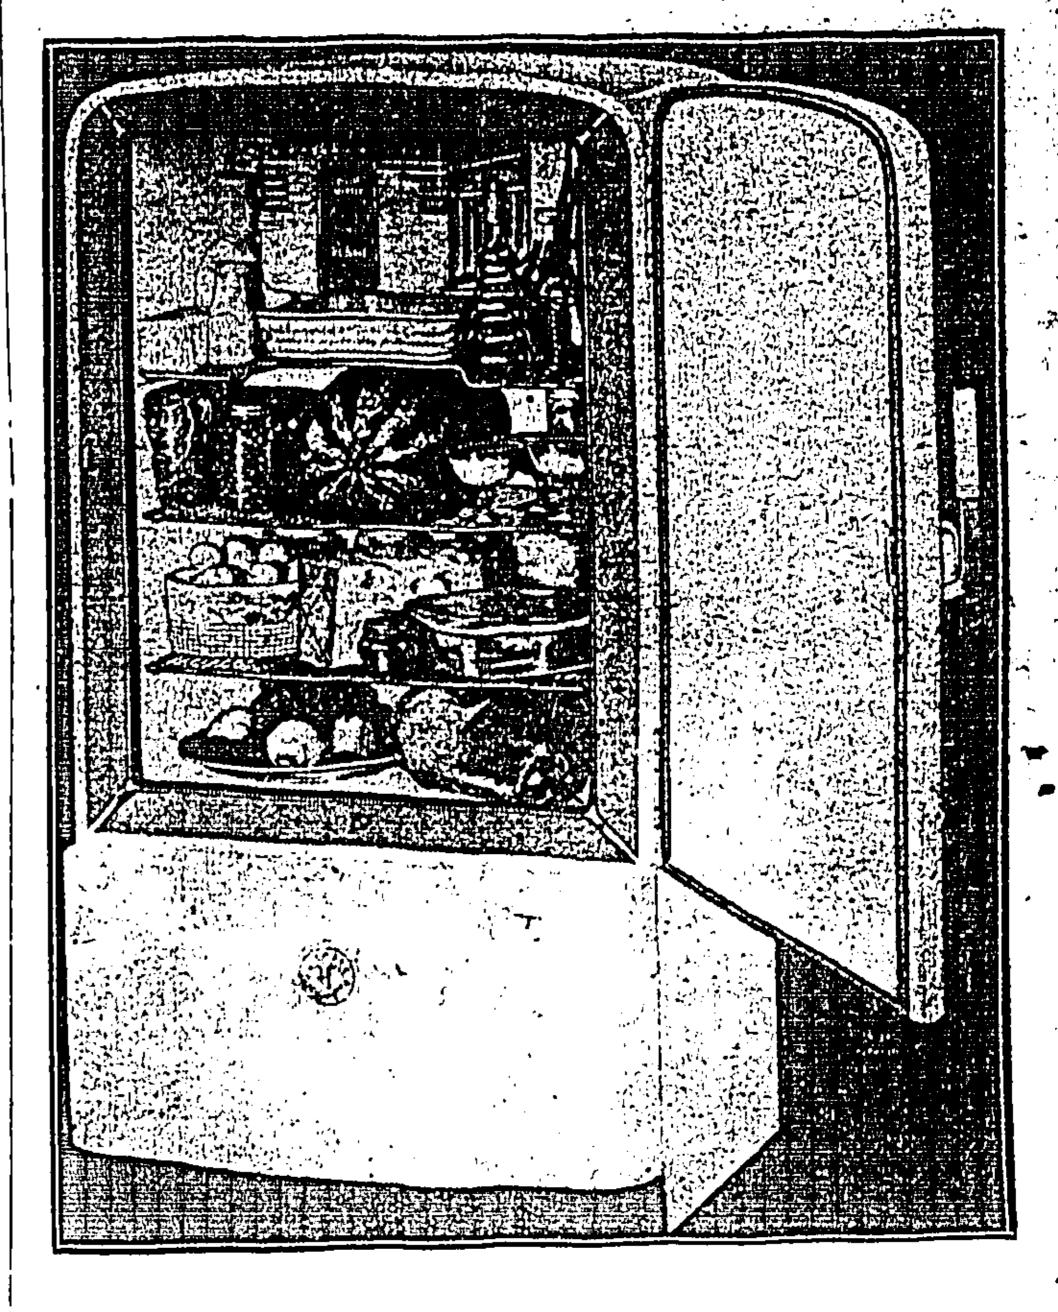

The wounded officer was rushed in an emergency ambulance of the Fire Brigade to the Country Hospital where he succumbed to his wound at about 6.37 p.m. little more than an hour after the shooting.

Several Chinese pedestrians who witnessed the shooting were taken to the station for questioning by detectives, but their information shed no light regarding the motive for the crime.

The deceased is unmarried and was transferred from the Sinza Road station to Bubbling Well station only about two months ago. At the time of his tragic death he had almost completed a year's service with the force.

AMERICAN SEAMAN ROBBED

William Stanton, an American seaman, was robbed of a gold chain and medal altogether valued at U.S.\$15 early in the morning while proceeding along Broadway East near Hwakee Road in Shanghai in a rickshaw.

The seaman was surrounded by a mob of about fifteen coolies at 1.15 a.m. when the district is usually quiet. The chain and medal were snatched away from

The robbers immediately took to their heels, escaping through a street near by. A complaint was subsequently made by the victim to the Wayside police station.

WILLIE HARRIS GOOD FOR SCOTLAND'S FIND RINK ON PRESENT FROM

By "Skip"

IN A PROGRAMME RATHER DISTORTED BY VOLUNTEER DUTIES, RESULTING IN THE POSTPONEMENT OF THREE GAMES, THERE WERE SEVERAL SURPRISING RE-SULTS. ALTHOUGH I OPINED CLUB DE RECREIO, WEAKENED AS THEY WERE BY 50 PER CENT, WOULD BEAT POLICE THEIR FAILURE TO DO SO WAS NOT REALLY SUR-PRISING. WHAT WAS UNEXPECTED ABOUT THE RESULT WAS, TO MY MIND, THE MAG-NITUDE OF IT.

Kowloon Dock had a truly great win against Kowloon Bowling Green Club "B" at Austin Road, though I doubt if the man who sold his sweep ticket chance for a paltry 6 dollars will quite agree with the adjective great. Dock won by 40 and secured five points quite easily.

Club de Recreio "B" did well to get the better of Civil Servants, even at King's Park, for their ranks were sadly depleted,

result of the day was that of Hong Kong Cricket Club, who ably accurate with these, came away from Stanley with three points. They are fully vindicating their presence in Second Division this year, Kowdoon Bowling Green in Third Division did well to beat Kowdoon Football. Club at Chatham Road as the latter had a useful team out.

"Jock" Fender's Four **Bowling Really Well**

DOLICE were always sitting pretty against the champions, who I am afraid will have to be called the exchampions before we have had many more black-outs! Jock Fender's four had a smashing win against. Carlos Silva, who could never get going from the word go. It must be a long time since the Portuguese skip has had his tally limited to so few as 8 shots, but he is not well. The Police quartette were obviously out-bowling the opposition. This rink, comprising Post, Forrest and Orem, will take some beating. I linagine: they are consistent as a whole and never more than one man fails to do his stuff.

In spite of losing to Shepherd by a singleton. Raoul Lux played an outstandingly fine game. I am told, and the defeat was no fault of his. I have commented not infrequently on the consistency of Willie Harris, two In in his emergency debut in First Divi-Shepherd's rink and he once more i sion bowls, where he took the place of l merited my praise. Neither Mair nor heads to go on this rink the team were Silva was quite as good as their front all square. men's play deserved.

It was a brittlant shot by Perkins which enabled the seven to be recorded, for he took out cleanly the shot which Noronha had laid when the enemy had four or five. Wally Mair added a couple—which does not alter my statement above-and Spuggy was short and then narrow, which further substantiates it.

Cullen's Spectacular Pile-Drivers

DOB Morrison failed to turn up at Austin Road to play for Kowloon Bowling Green Club "B" and Freddie Clemo-an employee of the firm some 25 years ago—made up the rink. Alec Calman took over the vacant place with Logan as lead in his stead and Cleme second man, where on his home splendid form as No. 2. Jimmy Gelgreen he did exceptionally well. In fact the whole four were beating the opposition in whom the will to win seemed lacking. Lockhart was weak as three to Sherriff and gave him little

Holloway's Promise In Emergency

Levett. McKelvie, the home three, was probably the best player on view though, and he drew some beauties "Dallah's deadly drives" trips off the tongue easily and adequately describes the strong feature of his game on this occasion. He was often up against it.

A. K. Suffiad gave Willie Walker, Holland's lead, as much as he could do to keep him in check, whilst Hussain was beating George Deacon, who was not up to standard, "Abe" Abbas again found his brilliant form and he was better than Holland. Alf Hall had a comparative novice in Holloway as lead, and he showed encouraging form

Eddie Souza Wins Match For Recreio

ALTHOUGH he lost heavily, Eddie Souza can be said to have won the game for Club de Recreio "B"

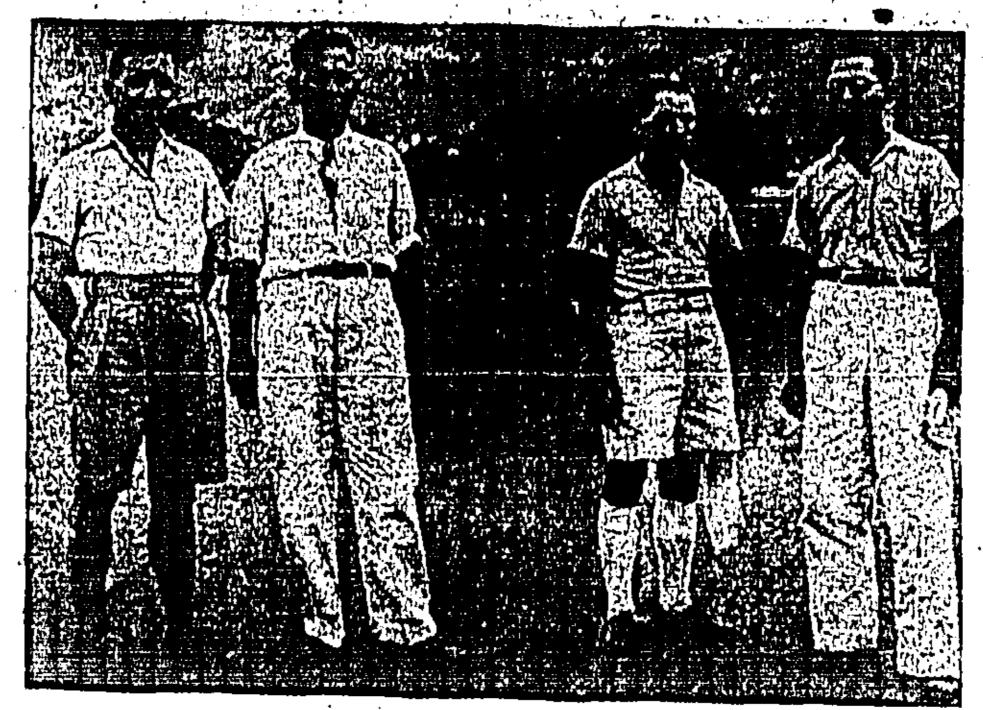

When the skips went down though, McGowan lay 3 and with his first wood he trailed to remain the same: nothing daunted, Souza first of all drew the first shot and, McGowan having failed to alter, he promptly added another.

Amid intense excitement—with the usual bunch of spectators exuding with gratuitious advice-the last head was played with C.S.C.C. therefore needing a couple to tie. They had one shot and McGowan made a frantic effort with his last wood to secure the half point. But to was just a shade narrow with a perfect weight shot. Rosselet's big count was due in a large measure to Fincher who, in trying to save, pushed out his nearest wood, which was probably fifth shot. Tough luck, but I expect he got his bonus.

Norman Bebbington made Bradbury go all the way before he was home by half-a-dozen. He played very well, I hear, whilst his front men were lending him consistent support.

Bradbury pot a rather fortuitous shot at the 19th when, with his opponent counting a couple, he glanced off a wood to trail the jack for four, whilst at the next head, with "Bebb" having four in his favour, the Valley man bumped up A Yard-short-wood for third.

Yvanovich Decides The Issue

DIETO Yvanovich was the hero of Club de Recreto's win against Hong Kong Football Club at King's Park, for he had a big win against George Graver. The home skip was in fine fettle, but it must be admitted that the woods ran kindly for him. Ken Forrow was leading pretty well But it is all in the run of the game, for the visitors, whilst F. Dazzling Shots By Jimmy Jack

DID not expect Kowloon Cricket Club to beat Hong Kong Football Club at Sports Road, but they managed to pull off a narrow win by 5 shots, thanks to Jimmy Jack's big win against Ken Robertson, who has lost his touch these last couple of weeks. The visitors scored no less than 22 shots before Robertson's number two touched the score board, all playing well to contribute to the result. Jimmy Jack got some dazziing shots... whilst Bob Leigh did well as third man, Willie Macfarlane finished strongly with II in the last four ends to beat Tommy Carr by half a dozen, whilst Walter Gill, after squaring with a four count at the 14th, went ahead of Bob Meadows, who played well, I heard,

AITKENHEAD BOWLS UPSET

Although there are no black-outs or Volunteer exercises in Shanghal to interfere with sport, progress in the lawn bowls championship in that city has been considerably retarded by unfavourable weather conditions. A spell of fine weather, however, enabled players to get out on the greens last week-end.

C. M. Sequeira, who has represented Shanghai against Hong Kong in Interport contests, and who was runner-up last year in the Singles Championship, beat the highly fancied A. M. Souza to enter the Second Round of the current tournament.

In the rinks championship R. C. Aitkenhead's four (A. Cheetham, L. Beattie and F. C. McPherson) entered the Third Round by eliminating the redoubtable rink skipped by F. O. Madar (G. N. Manley, J. M. C. Lopes and T. G. J. Almeida), thus - causing one of the biggest upsets to date in this year's Shanghai Championships. Madar's four were conceded an excellent chance of of reaching the Final.

Aitkenhead, of course, is wellknown to Hong Kong lawn bowl-. ers, while both Madar and Lopes have also played against the Colony in Interport contests.

K. L. Swartzell, only American to have played for Shanghai in Interport games (he was in H. Wallace's team that won the Prentice Cup in 1938) also figures in the list of successful skips, his four winning their way through to the Third Round.

SUCCEEDS WITH GIANTS

In recent years, or since Travis Jackson called it a day, the New York Glants have had almost as many third basemen as they have outfielders. Every time you looked down from the press box, Bill Terry was trying a new man. The so-called hot corner situation was one of the more discouraging angles of the Polo Grounds story.

DON'T DASH CLUB By Best Ball

Anxiety over the success of pitch shots, with backspin added, is one of the main reasons for stabbing or jabbing at the bail. Instead of using a smooth, moderately long stroke the player cuts his backswing short and dashes the club down. This action in turn induces head lifting and the result of these combined actions is a slashing of the clubhead into the turk behind the ball.

A pitching stroke must contact the ball as it is descending. Backspin will be imparted in relative amounts whenover the ball is struck in this fashion with a club possessing loft. The entire procedure, however, can be accomplished efficiently only when the player uses sufficient back-

swing to allow a smoothly accelerated stroke. Keep the head down until the clubhead is well past the impact point.

Germans Compelled To Admit Failure Of Blitzkrieg PERUVIAN

RATEOFADWANCE

"IF THE SLOW RATE OF THE GERMAN ADVANCE CONTINUES, HITLER WAY NOT TO MOSCOW BEFORE THE END OF AUGUST," WRITES THE STOCKHOLM "HANDELS TIDNING," QUOTING STATE-MENTS MADE BY THE GERMANS.

Much of Russia would then remain to be conquered, adds the newspaper.

Even according to German statements, the rate of progress of the German advance during the last 2Q days is only half that achieved in the previous 10 days.

WOSCOW DEFEATS RAIDERS

The fiercest hail of fire yet heard from Moscow's anti-aircraft batteries met Nazi bombers approaching Moscow on Wednesday night with the object of "blitzing" the Soviet capital for the third successive night.

So effective was the gunfire and the cooperation between A.A. batteries and searchlights tha once again only isolated 'planes broke through the city's outer defences to drop their bombs.

One feature of the three raids on Moscow has been the number of searchlights which the Russians have been able to concentrate on Email areas of sky.

Moscow's fire-watchers and fire-fighters again did splendid work on Wednesday night, and yesterday morning all except a few small fires had been extingulshed. — Reuter.

Random Bombs

International News says the blitz was held at bay for the third successive night by Moscow's A.A. batteries, and while a number of casualties and some fires were admitted, all but "eight or ten' isolated 'planes were repulsed.

Military targets escaped damage, and bombs were dropped at random outside the city.

News of operations is confusing but perhaps the situation is also confusing.

Propagandists, says the newspaper, announce the arrival of German mechanised troops at certain places but consolidation by support troops is necessary before capture can be claimed by official communiques, while the Russians behind the advance German troops hold up the support troops.

For instance, Kiev was probably reached by some armoured units when announced by the Germans, Afterwards larger German units, probably with much loss, forced their way to Klev, which is probably encircled now.

Although the encirclement of Kiev was announced a week ago it is not yet in German hands.

Promised Sweep

Similarly the promised giant German sweep from south and north against. Leningrad has not materialised, probably because the Russian defence is not so disorganised as the Germans suggest.

Even when the Germans have taken Kiev they will be, merely on the edge of the Ukrainian granary.

Until they possess Kharkov and its regions the Germans are hardly likely to derive any real benefit from the resources of the Ukraine, and they are a long way yet from Kharkov.—Reuter.

SENATOR BURTON K. WHEELER has posted post-cards to Army officers and men urging them to oppose United States entry into the war.

This was revealed by the Secretary of War, Mr. Henry Stimson, at his press conference in Washington yesterday.

Mr. Stimson declared: "I think this comes very near the line of subversive activities against the United States, if not treason."

The cards went out postage free, Mr. Stimson said, One million cards were printed in the Government printing office but were labelled "not printed at Government expense."

Mr. Stimson continued: "When such appeals are addressed to soldiers, the action crosses the line of what General Marshall called sabotage."

General Marshall (Chief of the Army General Staff) had previously described as "sabotage," attempts to induce officers and men to oppose extension of their active duty.

ANOTHER 3,000,000 MEN and women are to be registered for industrial national service in Great Britain between August 2 and December 6.

The Ministry of Labour and National Service yesterday announced that in addition to women born in the years 1912 to 1916, Mr. Ernest Bevin, Minister of Labour, had to register, under the Registration for Employment Order, men born in 1895, 1896 and 1897.

French About Warning Indo-China

FEEBLE VICHY EXCUSE

[SPECIAL TO "CHINA MAIL"]

In a feeble effort to justify the surrender of bases in Indo-China to Japan, the Vichy spokesman yesterday claimed that there had been no response a year ago to the Indo-China petition for United States protection. -- International News Service.

"FREE FRANCE will never recognise cessions in French colonies to which the Vichy Government has agreed," says a statement issued yesterday by the Direction of Political Affairs of Free France, referring to the agreement with Japan concerning Indo-China.

The statement, issued in London, declares that the agreement delivers Indo-China in advance to the Japanese, and expresses the indignation of the French people as regards "this fresh squandering of the national heritage."

The statement recalls that in ... March, General de Gaulle and the Council of Defence of the French-Empire declared that any cession by Vichy, particularly in the case of Indo-China, would be con- September and vast territories sidered null and void.

It then continues: "The Vichy Siam in March." Government decided to fight the Free French and the British in Syria, in Indo-China they

A vivid description of the bloody battle which preceded the German occupation of Libau, important port of Latvia, was sent to the "Asahi" by its Berlin correspondent as it was published in the German papers. The correspondent's cable was delayed in transmission.

It was only after five days of furious fighting that Libau was definitively occupied by the Germans, he said. The Red Army had mobilised every imaginable unit in the defence of Libau.

In order to break through the steel ring thrown by the Germans around the town, the Russians made use of amphibian tanks which attacked the German positions at night. Communists disguised as women penetrated into |German artillery units and massacred several soldiers.

To crush Soviet resistance it was necessary to destroy every pillbox constructed along the beach.

Flame Throwers

As the Germans entered the town and advanced slowly the fight became more violent, and they were compelled to use the most efficient arms to destroy the defenders, such as new tanks armed with guns, flame-throwers, heavy machine-guns and all available material.

From encircled blocks of buildings a hail of bullets was fired at the Germans. Women continued firing when their husbands were wounded. The whole city was enveloped in flames and it was impossible to see beyond one's own hand.

Even when the city's defences were completely shattered, the Russians continued to resist till the very end. Among the prisoners seen marching through the streets of the city after the battle were a number of armed civil-

The Shanghai Power Company recently negotiated with the K.M.A. and with a Portuguese steamship concern. It is believed that an agree-

STORM CLOUDS

Storm clouds over the Pacific are no very rare phenomena and it does not follow, therefore, that the crisis that threatens over Japan's further encroachments in Indo-China will develop into the crisis that ends all crises. Although the latest pact signed between London and Moscow is not a military alliance, the paper believes that it has put the two countries on the basis of a military alliance.

Naval Offensive Urged

In addition to launching offensives in the air with ever-increasing jury, the leading Chinese daily published in Shanghai suggests that Britain should attack in the Black Sea, Mediterranean, Atlantic, North Sea and even the Baltic Sea with her naval forces. On land, Britain should increase

her attacking strength in Africa. She may land at any point along the coast of the continent and may even send an expeditionary force to Russia.

It is pointed out, however, that the most urgent needs of Russia to-day may probably be technical help and war material.

Economic Bloc Possible

The writer points out the importance of the fact that the new pact has been fully agreed to by the British authorities of Dominions and says that since the United States has also promised lf therefore, two sovereign be endangering American national help for Russia, an economic bloc states like Japan and France make defence supplies, are seen in an agreement, it appears difficult Washington as preliminaries to countries fighting on the side of for outsiders to intervene. democracy, including China, without interference from the Axis powers. Brutal ai-C Outrage

A brutal outrage occurred at Tai-O early yesterday morning when seven robbers, after ransacking a temple, set fire to it.

Kerosene was poured over some of the Chinese nuns with the resuit that an 80-year-old inmate of the temple died from severe burns and shock.

A 13-year-old noviciate also received severe burns and was later

admitted to hospital. The men forced their way into the temple shortly before 1 a.m. and after compelling the nuns to hand over their money, some \$70, demanded more. Being told there was no more, the men brought im. bundles of firewood, poured kerosene over them and set the temple

They then splashed kerosene over some of the nuns and set fire The elderly nun was severely burned and died soon afterwards.

JAPAN TAKE ACTION

MR. SUMNER WELLES' statement on Japan's aggression in Indo-China is regarded in Washington as being of the utmost importance, indicating clearly that if the Japanese occupation of Indo-China is proceeded with, American action in the economic sphere is very likely.

The failure of Vichy to offer even token resistance or even to protest, is a handicap to such action, according to some observers, who feel that Vichy is always ready to oppose the British, as in Syria, but will fight none else no matter how provoked.

ACCORDING TO military observers, the Soviet-German war, can be characterised by the following facts:—

- 1. The German advance is continuing towards Leningrad, but only after violent. Aghting which has slowed it down considerably.
- 2. In the central sector, the German armoured vanguard is advancing towards Smolensk, while the Russians are attacking the German northern flank in the Vitebsk area and the southern flank in the Mogilev sector.
- 3. In the south the army under Marshal Budenny is covering Kiev and is carrying out several counter-attacks, unsuccessful in the direction of Berdichev, but with better results against the left wing of the German-Rumanian forces.
 - 4. The resistance of Soviet troops is efficient in the three major combat sectors.
- 5. The front presents more and more the aspect of long interferences with, in some spots, important zones of resistance behind the advanced positions, Russian tactics, based on the strategy of depth, are dangerous, as proved by the Bialystock fighting, and consist in not operating a general withdrawal but of leaving important shock troop contingents behind the German lines. The main aim is rather to inflict as heavy. losses as possible upon the enemy both in men and material than to oppose the enemy advance.
- 6. The destruction of towns and crops by the Soviets prior to their withdrawal. is being carried out in accordance with M. Josef Stalin's Instructions.
- absence of details idea can be had no exact regarding the general situation until the fate of Kiev and Leningrad is decided.
- It is generally believed, however, that the former capital of the Czars, Leningrad, is in a position to sustain a drawn-out

INDUSTRY

"We can make it" is Indian industry's determined cry.

It is a counterpart to Britain's now famous words "We can take, it," declared Mr. Picot, New Zealand's representative on the Eastern Group Council, in Simla yesterday.

Mr. Picot had just returned from a tour of India's manufacturing areas.

"India's industry He added; like her army is being quietly, skilfully and effectively mobilised until we see keen Indian brains and competent Indian hands transforming Indian iron ore into guns, tanks, shells, armoured carriers, aerial bombs and numerous requirements of modern warfare." -Reuter.

WILLE HARRIS GOOD FOR SCOTLAND'S RINK ON PRESENT FORM

By "Skip"

IN A PROGRAMME RATHER DISTORTED BY VOLUNTEER DUTIES, RESULTING IN THE-POSTPONEMENT OF THREE GAMES, THERE WERE SEVERAL SURPRISING RE-SULTS. ALTHOUGH I OPINED CLUB DE RECREIO, WEAKENED AS THEY WERE BY 50 PER CENT, WOULD BEAT POLICE THEIR FAILURE TO DO SO WAS NOT REALLY SUR-PRISING. WHAT WAS UNEXPECTED ABOUT THE RESULT WAS, TO MY MIND, THE MAG-NITUDE OF IT.

Kowloon Dock had a truly great win against Kowloon Bowling Green Club "B" at Austin Road, though I doubt if the man who sold his sweep ticket chance for a paltry 6 dollars will quite agree with the adjective great. Dock won by 40 and secured five points quite easily.

Club de Recreio "B" did well to get the better of Civil Servants, even at King's Park, for their ranks were sadly depleted.

On the whole, I think the best | the Jack. Fred Cullen's specialities result of the day was that of were pile-drivers and he was remark-Hong Kong Cricket Club, who ably accurate with these. came away from Stanley with three points. They are fully vindicating their presence in Second Division this year, Kowloon Bowling Green in Third Division did well to beat Kowloon Football Club at Chatham Road as the latter had a useful team out.

"Jock" Fender's Four **Bowling Really Well**

DOLICE were always sitting pretty against the champions who I am afraid will have to be called the exchampions before we have had many more black-outs! Jock Fender's four had a smashing win against Carlos Silva, who could never get going from the word go. It must be a long time since the Portuguese skip has had his tally limited to so few as 8 shots, but he is not well. The Police quartette were obviously out-bowling the opposition. This rink, comprising Post, Forrest and Orem, will take some beating, I imagine; they are consistent as Holland's lead, as much as he could do a whole and never more than one man to keep him in check, whilst Hussain fails to do his stuff.

In spite of losing to Shepherd by a singleton. Raoul Lux played an outstandingly fine game, I am told, and the defeat was no fault of his. I have comparative novice in Holloway as commented not infrequently on consistency of Willie Harris, two in Shepherd's rink and he once more merited my praise. A good find for the indisposed Sykes. Hall a finished Scotland's team this year on current strongly scoring 9 on the last 6 ends

In spite of conceding a bottle of John Haig-I mean a seven--Spuggy Sllva. who was only once in arrears, in spite of that, beat Wally Mair by half-adozen. All his men played consistently. Xavier just beating Gough as lead and Pile and Rodrigues sharing honours Polly Perkins—see below—was in very fine form, but had nothing on Jackie Noronha. Neither Mair nor Silva was quite as good as their front all square. men's play deserved.

It was a brilliant shot by Perkins which enabled the seven to be recorded, for he took out cleanly the shot which Noronha had laid when the enemy had four or five. Wally Mair added a couple-which does not alter my statement above-and Spuggy was short and then narrow, which further substantiates it.

Cullen's Spectacular Pile-Drivers

Austin Road to play for Kowloon Bowling Green Club "B" and Freddle Colledge is improving. Clemo-an employee of the firm same 25 years ago-made up the rink. Alec of the eight in which C. A. Lopes beat last Saturday, and I have been Calman took over the vacant place Deakin's four by the match-winning trying to find out a ruling to cover with Logan as lead in his stead and margin of over 20 shots. Holloway's Promise In Emergency

■NDIANS gave Kowloon Bowling Green Club "A" quite a fright at Austin Road, and it needed some heavy steaming on the part of Bob Duncan's rink to save the day, although Alf Hall also finished strongly to win by half-adozen shots. Bob's lend, R. P. Phillips, and Jeff Hoosen were evenly matched, but A. K. Ismail played brilliantly to claim an advantage of Col Levett McKelvie, the home three, was probably the best player on view though, and he drew some beauties. "Dallah's deadly drives" trips off the tongue easily and adequately describes the strong feature of his game on this occasion. He was go all the way before he was home by often up against it.

A. K. Suffiad gave Willie Walker, was beating George Deacon, who was not up to standard, "Abe" Abbas again found his brilliant form and he was better than Holland. Alf Hall had a the lead, and he showed encouraging form in his emergency debut in First Division bowls, where he took the place of l

When the skips went down though, McGowan lay 3 and with his first wood he trailed to remain the same: nothing daunted, Souza first of all drew the first shot and, McGowan having failed to alter, he promptly added another.

Amid intense excitement-with the usual bunch of spectators exuding with gratuitious advice-the last head was played with C.S.C.C. therefore needing a couple to tie. They had one shot and McGowan made a frantic effort with his last wood to secure the half point. But he was just a shade narrow DOB Morrison failed to turn up at with a perfect weight shot. Yvanovich Decides The Issue

DIETO Yvanovich was the hero of Club de Recreto's win against Hong Kong Football Club at King's Park, for he had a big win against George Graver. The home skip was in fine fettle, but it must be admitted that the woods ran kindly for him. Ken Forrow was leading pretty well for the visitors, whilst F. Flippance put in some useful shots. His front men, though not bad, were being beaten by the hosts for the most part and this gave their skip plenty. of work. He simply wallowed in it, drawing, driving or facing out with equal facility, and won by 16 shots to carry the side to a narrow victory.

Dai Davies, though on the losing side, was in fine drawing form against Bagley and he saved. I am told-by a Stanley man -fully 20 shots.

In the last three heads alone my informant tells me, he definitely saved 9 shots, all by means of steady drawing to the objective.

Frank Goodwin had the barest of leads against Gowland right up to the 15th end, but then a count of six put the home skip on the way to a 4-shot

Dazzling Shots By Jimmy Jack

DID not expect Kowloon Cricket Club to beat Hong Kong Football Club at Sports Road, but they managed to pull off a narrow win by 5 shots, thanks to Jimmy Jack's big win against Ken Robertson, who has lost his touch these last couple of weeks. The visitors scored no less than 22 shots before Robertson's number two touched the score board, all playing well to contribute to the result. Jimmy Jack got some dazzling shots whilst Bob Leigh did well as third man,

Willie Macfarlane finished strongly with II in the last four ends to beat Tommy Carr by half a dozen, whilst Walter Gill, after squaring with a four count at the 14th, went ahead of Bob Meadows, who played well, I heard,

Although there are no black-outs or Volunteer exercises in Shanghal to interfere with sport, progress in the lawn bowls championship in that city has been considerably retarded by unfavourable weather conditions. A spell of fine weather, however, enabled players to get out on the greens last week-end.

C. M. Sequeira, who has represented Shanghai against Hong Kong in Interport contests, and who was runner-up last year in the Singles Championship, beat the highly fancied A. M. Souza to enter the Second Round of the current tournament. In the rinks championship

R. C. Aitkenhead's four (A. Cheetham, L. Beattie and F. C. McPherson) entered the Third Round by eliminating the redoubtable rink skipped by F. O. Madar (G. N. Manley, J. M. C. Lopes and T. G. J. Almeida), thus causing one of the biggest upsets to date in this year's Shanghai Championships. Madar's four were conceded an excellent chance of of reaching the Final.

Aitkenhead, of course, is wellknown to Hong Kong lawn bowlers, while both Madar and Lopes have also played against the Colony in Interport contests.

K. L. Swartzell, only American to have played for Shanghai in Interport games (he was in H. Wallace's team that won the Prentice Cup in 1938) also figures in the list of successful skips, his four winning their way through to the Third Round,

Mrs. A. E. Graectt'o Australian pony Sappor, winner of \$11,621,00 in stakes money and probably the finest pony to have raced on the Valley track, has been 'sold' to Captain Holmes, owner of Victoria, a China pony, for \$5,500.00, according to in-Tormation received from a rellable source.

Sapper was ridden with great success by Mr. D. Black. the champion lockey, and Mr. W. H. S. Davis.

National Victory, an Australian K M Omar, who is the normal No. 2 with Talkoo on July 12, provided them; pony belonging to the Why stable, together with a few others, has out owing to illness and will be re- Craigengower this week, and will have already commenced training at the Valley and is being put through light work. Training in but Field, who was not playing in the general will begin on Monday, or early next month in preparation for the second half of the season.

It is understood that the second Australia, will be arriving here towards the end of the month.

The first batch have already been broken in, and the opinion is that they have turned out better animals than any of the previous lots received from Australia.

BRITISH VIEW OF EVENTS

(SPECIAL TO "CHINA MAIL")

The British authorities in London do not regard the Japanese move in Indo-China as an immodiate threat to Singapore but it is believed the Admiralty is closely watching developments.

Britain is expected to appeal to the United States for economic assistance in coping with the situation, probably sanctions, where the Japanese are most vulnerable, but only if the United States carries out parallel action. BRITAIN'S FOOD OUTPUT

Opening the debate on the supply vote for the Ministry of Agriculture, Mr. R. S. Hudson gave an interesting survey of the position of food production in Britain.

The account of the agricultural situation, he said, was very much brighter than it would have been possible to make a year ago and although it was dangerous to prophecy before the harvest was actually gathered, it was now reasonably sure that farmers would produce a greater food output than in any previous year in the present century.

Looking ahead to the food posttion as it will be during the third year of the war, the Minister of Agriculture said that as a result of heavy losses in the Battle of the Atlantic and elsewhere, the total amount of food and teeding stuffs that would be received from overseas was bound to be lower than in the second year.

In spite of a considerable reduction it should be possible to assure the people of this country that in the third year of the war the quantity of food expressed in the quantity of food expressed in terms of food value would be maintained.

Dealing with milk supply, Mr. Hudson revealed that consumption by the public was now greater than before the war.

Propagandists, says the newspaper, announce the arrival of German mechanised troops at certain places but consolidation by support troops is necessary before capture can be claimed by official communiques, while the Russians behind the advance German troops hold up the support troops.

For Instance, Klev was probably reached by some armoured units when announced by the Germans. Afterwards larger German units, probably with much loss, forced their way to Klev, which is probably encircled now.

Although the encirclement of Kiev was announced a week ago it is not yet in German hands.

Promised Sweep

Similarly the promised giant German sweep from south and north against Leningrad has not materialised, probably because the Russian defence is not so disorganised as the Germans suggest.

Even when the Germans have taken Kiev they will be merely on the edge of the Ukrainjan granary.

Until they possess Kharkov and its regions the Germans are hardly likely to derive any real benefit from the resources of the Ukraine, and they are a long way yet from Kharkov.—Reuter.

The cards went out postage free, Mr. Stimson said. One million cards were printed in the Government printing office but were labelled "not printed at Government expense."

ANOTHER 3,000,000 MEN and women are to be registered for industrial national service in Great Britain between August 2 and December 6.

The Ministry of Labour and National Service yesterday announced that in addition to women born in the years 1912 to 1916, Mr. Ernest Bevin, Minister of Labour, had to register, under the Registration for Employment Order, men born in 1895, 1896 and 1897.

It is understood that the urgency for additional manpower, both for the Forces and munition works, is such that it may be necessary in the near future again to revise the schedule of reserved occupations and to raise the age of reservation in some groups.

It explained the Army's share of funds to provide for one year's maintenance on a combat status of an air force of 83 groups instead of the 54 groups planned at present.

Increase of the Army's manpower would consist of 152,000 men needed in connection with the expanded training programme of 30,000 pilots and an additional 157,000 men needed for new units being created this fiscal year.

Out of the Army's funds, \$3,409,000,000 would finance the acquisition of huge ammunition reserves and places for storage. This sum would also permit a vast increase in the number of tanks, anti-tank guns and other artillery equipment,

Mr. Robert Patterson, Under-Secretary for War, told the Committee that the Army request for \$1,300,000,000 for ordnance weapons was made in order to "form a pool of items which will be needed, we are quite sure, as things get more serious or if we go into actual conflict. "I think we would all be

blind to what is going on abroad if we did not recognise that protection against aircraft in the shape of A.A. weapons and mechanisation in the shape of tanks and protection against tanks, will be the items most urgently needed by the Army." The Army's Chief Signal Offi-

cer, Major-General Mauborgne, told the Committee of plans to procure secret equipment "urgently required by the U.S. at the earliest moment, by the Air Force Combat Command, the Coast Artillery and Signal Corps." The items were listed as "installation and rehabilitation of

JAPAN'S MOVE AGAINST INDO-CHINA WAS THE MAIN REA-TURE OF EDITORIAL COMMENT IN THE LONDON AND PROVIN-CIAL PRESS, THE GENERAL TENOR OF SUCH COMMENTS BEING THAT ALL COUNTRIES AFFECTED ARE WATCHING THE SITUA-TION CAREFULLY AND ANXIOUSLY AND A REWINDER IS GIVEN THAT JAPAN IS PARTICULARLY VULNERABLE TO ECONOMIC PRESSURE.

"The Times" says Prince Konoye followed the line of least resistance and selected Indo-China as the scene of the next attempt to extend the frontiers of the "new order in East Asia"... with the reluctant consent of the local French authorities.

Formal announcement of the Japanese occupation will probably be made after the week-end, and Whitehall and the White House, Chungking and the Kremlin, Bangkok and Batavia, will scan the Pacific horizon anxiously for indications of the next move.

It is clear, adds "The Times," that the utmost vigilance is required on the part of those States against whom the latest Japanese advance may be aim

News from Washington in dicates this is as fully realised by the State Department as by the Foreign Office in London and that the two Governments chiefly concerned are in full agreement as to counter-measures which tae Japanese move demands, -

point in Indo-China can be represented as an act not in itself per lunar month for 38 lunar hostile to the British Empire or the United States, nor entry into the greater war.

Woeful Error

Prince Konoye and his colleagues would find themselves woefully mistaken should they act upon the assumption that they will be allowed to make Indo-China a place of arms for an attack upon the British Empire.

Japan's move has been no mystery and, in consultation with the Dominions and the United States, the British Government, have worked out a plan! of drastic economic sanctions against interference with the rights of free nations.

U.S. Warning

Mr. Welles' prompt denunciation of Japan should be taken as a warning, says the "Telegraph," concluding that no country in the world is so dependent on trade as Japan and adding that a ban on oil and other commodities essential: to war of which she produces none would make her helpless with the mass of her army still floundering in the morass of the Chinese struggle,

We may hope that counsels of sanity will yet provail, the paper cays. Tokyo should realise that if the madness of milltarism has its way, and Anglo-American rights are challenged, an American British Empire embargo would make Japan impotent,

The "Yorkshire Post" considers Japan's move directly threatening to the U.S. in that it threatens to ready cost France effective deprive the U.S. of important supplies of rubber and tin.

THE PAPER ADDS THAT THE IMPLICATION OF MR. WELLES' STATEMENT IS THAT JAPAN CANNOT MAKE AN ENEMY OF BRITAIN AND RE-MAIN ON FRIENDLY TERMS WITH THE U.S. — REUTER.

Judgment for plaintiff, Yuen Kam-tin, was given by the Puisne Judge, Mr. Justice P. E. F. Cressall, at the Summary Court this morning against To Tak-he for \$366 on a claim for \$394 based on a Chinese borrowing note executed on January 29, 1938 and repayable six months later.

FEEBLE VICHY **EXCUSE**

In a feeble effort to justify the surrender of bases in Indo-China to Japan, the Vichy spokesman yesterday claimed that there had been no response a year ago to the Indo-China petition for United States protection. — International News Service.

Activity

Heavy dust storms at Tobruk on Wednesday caused a temporary lull in British offensive patrolling activities in Libya, according to yesterday's Middle East communique.

The communique adds: "In the frontier area, however, advanced elements of our mechanised units were again aggressive, ejecting the enemy from several observation points.

"Units of our artillery cooperated with effective fire upon the retreating enemy patrols." The communique reports all quiet in Abyssinia and Syria. ---Reuter.

MARNING

"FREE FRANCE will never recognise cessions in French colonies to which the Vichy Government has agreed," says a statement issued yesterday by the Direction of Political Affairs of Free France, referring to the agreement with Japan concerning Indo-China.

The statement, issued in London, declares that the agreement delivers Indo-China in advance to the Japanese, and expresses the indignation of the French people as regards this fresh squandering of the national heritage."

The statement recalls that in as a pretext for trying to incite March, General de Gaulle and the French public opinion against Council of Defence of the French Britain and China, the statement Empire declared that any cession says: by Vichy, particularly in the case of Indo-China, would be considered null and void.

'It then continues: "The Vichy Government decided to fight the Free French and the British in Byria. In Indo-China they offer incoresistance to the amibitions of Japan.

"Japanese 'protection' has alsovereignty over Tonkin last September and vast territories of Cambodia and Laos ceded to Siam in March."

Mr. Welles Says National Security Now Involved

JAPAN WAS STRONGLY DENOUNCED AS THE AGGRESSOR IN INDO-CHINA IN A STATEMENT BY THE AMERICAN STATE DEPARTMENT, ISSUED BY MR. SUMNER WELLES, ACTING SECRETARY OF STATE, IN WASHINGTON LAST EVENING.

The statement says: "It will be recalled that in 1940 the Japanese Government gave expression on several occasions to its desire that conditions of disturbance should not spread to the region of the Pacific, with special reference to the Netherlands East Indies and French Indo-China.

by many other governments, including the Government of the United States.

"In statements by this Government it was made clear that any alterations in the existing status of such areas by other than peaceful processes could not but be prejudicial to the security and peace of the entire Pacific area, and that this conclusion was based on a doctrine which had universal application.

"On September 23, 1940, refer ring to events then capidly happening in the Indo China situation, the Secretary of State made a statement that it reemed obvious that the existing cituation was being upset and changes being achieved under duress

"Present developments in relation to Indo-China provide a clear indication that changes are now being effected under duress.

"The present unfortunate situation in which the French Govern ment of Vichy and the French the Nazi regime, writes Government in Indo-China find themselves is, of course, well

In No Position

"It is colly too clear that they are in no position to resist ${\mathbb C}^1$ (pressure exercised on them.

"There is no doubt as to the attitude of the Government and people of the United States towards acts of aggression carried; out by the use or threat of arm ed force. That attitude has been made abundantly clear.

"By the course which it has followed and is following regarding Indo-China, the Japanese Government is giving a clear indication that it is determined to pursue an objective of expansion by force.

"There is not apparent to the United States Government any valid ground on which the Japanese Government would be warranted in occupying Indo-China or establishing bases in that area as measures of sofdefence.

Aim Of Conquest

"This Government can therefore only conclude that the action has been undertaken by Janan because it is estimated of value for Japan to have bases in that region primarily for the purpose of further and more obvious movements of conquest in adjacent areas.

"In the light of previous developments, steps such as are now being taken by the Government of Japan endanger the peaceful use by peaceful nations of the Pacific.

"They tend to jeopardise the procurement by the United States of essential materials such as tin and rubber which are necessary for the normal economy of the country and for the consummation of our defence programme.

Security Involved

"Purchase of tin, rubber, oil or other raw materials in the Pacific area on equal terms with other nations requiring these materials, has never been denied to Japan.

The steps which the Japanese Government have taken also endanger the safety of other areas in the Pacific, including the

Philippine lelands. "The Government and people of this country fully realise that such developments bear directly upon the vital problem of our national security;"-Reuter.

WAKEUPYOUR LIVER BILE-

Without Calomel - And You'll Jump out of Bed in the Morning Full of Vim.

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest It just decays in the bowels. Wind bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, tired and

weary and the world looks blue. Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up" Harmless, gentle, yet amazing in making bile flow freely. Ask for CARTER'S Little Liver Pills by name. Stubbornly refuse anything else.

The scientifically balanced food-tonic that helps mother and child. Supplies valuable Calcium and VITAMIN D and other food essentials.

West's Ace. West led the Queen of clubs, dummy ruffing; and North led the Jack of diamonds, East ruffing.

East hopefully returned a heart, but South put up the Ace and led the three of spades (carefully saved for this purpose) to dummy's seven. And then the ten of diamonds allowed South to discard the remaining heart.

We dssure you a crime was committed in the play of this hand. See if you can spot it before you read on.

East was the criminal, and his crime took place at the very first trick! Correct play is for East to overtake the club King with the club Ace! Then East can return a heart through South. The defenders could then plug away at hearts persistently and would just have time to win a heart trick in addition to one trick in each of the other suits.

Yesterday you were Oswald Jacoby's partner and with both side vulnerable, you held:

Soviet

The latest Soviet air hero is Sergeant-Pilot Tomin who single-handed tackled German 10 'planes,

Eight Nazi JU 88 bombers escorted by two Messerschmitt fighters were approaching a Soviet aerodrome.

Tomin flew into battle. He poured machine-gun bullets into the Nazi bombers and all the bombers and one of the Mcsserschmitts fied.

Tomin desperately hung onto the tail of the remaining Messerschmitt, getting nearer and nearer. In despair the Nazi pilot overturned his 'plane and fell to the ground.—Reuter.

ALTHOUGH I OPINED CLUB DE RECREIO, WEAKENED AS THEY WERE BY 50 PER CENT, WOULD BEAT POLICE THEIR FAILURE TO DO SO WAS NOT REALLY SUR-PRISING. WHAT WAS UNEXPECTED ABOUT THE RESULT WAS, TO MY MIND, THE MAG-NITUDE OF IT.

Kowloon Dock had a truly great win against Kowloon Bowling Green Club "B" at Austin Road, though I doubt if the man who sold his sweep ticket chance for a paltry 6 dollars will quite agree with the adjective great. Dock won by 40 and secured five points quite easily.

Rosselet's big count was due in a large measure to Fincher who, in trying to save, pushed out his nearest wood, which was probably fifth shot. Tough luck, but I expect he got his bonus.

Norman Bebbington made Bradbury of his game on this occasion. He was go all the way before he was home by half-a-dozen. He played very well, I hear, whilst his front men were lending him consistent support. Bradbury got a rather fortuitous

shot at the 19th when, with his opponent counting a couple, he glanced off a wood to trail the Jack for four, whilst at the next head, with "Bebb" having four in his favour, the Valley man bumped up a vard-shor'-wood for third.

But it is all in the run of the game, and I am not going to say that a skip lay. "Never up, never down" is what seven at the 9th end to Bert Manselly the golfers say I believe.

Yvanovich Decides The Issue

DIETO Yvanovich was the hero of K.F.C. (364) Club de Recreio's win against Hong Kong Football Club at King's Park, for he had a big win against George Graver. The home skip was in fine fettle, but it must be admitted that the woods ran kindly for him. Ken Forrow was leading pretty well for the visitors, whilst F. Flippance put in some useful shots. The other two strongly scoring 9 on the last 6 ends who is always up should be called home skips. M. F. Pinna and H. R. lucky on every occasion he alters the Pinna both lost, the latter conceding

Dai Davies, though on the losing side, was in fine drawing form against Bagley and he saved, I am told-by a Stanley man-fully 20 shots.

In the last three heads alone my informant tells me, he definitely saved 9 shots, all by means of steady drawing to the objective. Frank Goodwin had the barest of leads against Gowland right up to the 15th end, but then a count of six put the home skip on the way to a 4-shot

Dazzling Shots By Jimmy Jack

DID not expect Kowloon Cricket Club to beat Hong Kong Football Club at Sports Road, but they managed to pull off a parrow win by \$ shots, thanks to Jimmy Jack's big win against Ken Robertson, who has lost his touch these last couple of weeks. The visitors scored no less than 22 shots before Robertson's number two touched the score board, all playing well to contribute to the result. Jimmy Jack got some dazzling shots whilst Bob Leigh did well as third man,

Willie Macfarlane finished strongly with 11 in the last four ends to beat Tommy Carr by half a dozen, whilst Walter Gill, after squaring with a four count at the 14th, went ahead of Bob Meadows, who played well, I heard,

AITKENHEAD

Although there are no black-outs or Volunteer exercises in Shanghai to interfere with sport, progress In the lawn bowls champlonship in that city has been considerably retarded by unfavourable weather conditions. A spell of fine weather, however, enabled players to get out on the greens last week-end. C. M. Sequeira, who has re-

presented Shanghai against Hong Kong in Interport contests, and who was runner-up last year in the Singles Championship, beat the highly fancied A. M. Souza to enter the Second Round of the current tournament.

In the rinks, championship R. C. Aitkenhead's four (A. Cheetham, L. Beattie and F. C. -McPherson) entered the Third Round by eliminating the redoubtable: rink skipped by F. O. Madar (G. DON'T DASH CLUB DOWN By Best Ball

Anxiety over the success of pitch shots. with backspin added, is one of the main reasons for stabbing or jabbing at the ball. Instead of using a 'smooth, moderately long stroke the player cuts his backswing short and 'dashes' the club down. This action in turn induces head lifting and the result of these combined actions is a slashing of the clubhead into the turf behind. the ball. '

A pitching stroke must contact the ball as it is descending. Backspin will be imparted in relative amounts whenever the ball is struck in this fashion with a club possessing loft. The entire procedure, however, can be accomplished efficiently only when the player uses mufficient back-

swing to allow a smoothly; accelerated stroke. Keep the head down until the clubhead is well pust the impact point.

One has only to look at the map to see that air bases in south Indo-China and the naval bases at Camranh Bay and Salgon are far nearer Burma, Malaya and Borneo, than the former Japanese southernmost buses in Tonkin and Hainan Island.

These new bases also represent a much more serious threat to communications between Malaya, Borneo, the N.E.I. and the Philippines

However, the immediate seriousness should not be coverestimated.

Editorial comment today in the U.S. shows clearly how the Japanese action in Indo-China is rousing American public opinion dangerously for Japan.

In one of the most forthright editorials in recent months the "New York Times" says the Government Japanese must be made clearly to understand that aggressive action on its part in Siberia, the N.E.I. or Indo-China will be met by prompt retaliation by the U.S.

The Japanese Government would guess wrong, says the paper, if it concluded there are no effective steps the U.S. can take to halt or punish further aggression in the Pacific.

"We still have a powerful fleet in that ocean," it says. — Reuter.

A spirited denunciation of broadcast in French by the Free French commentator from Singaport radio last night and early to-day.

"Indo-China was created by French admirals: it has been destroyed by French admirals who prefer stage politics to fighting on the decks of their battleships."

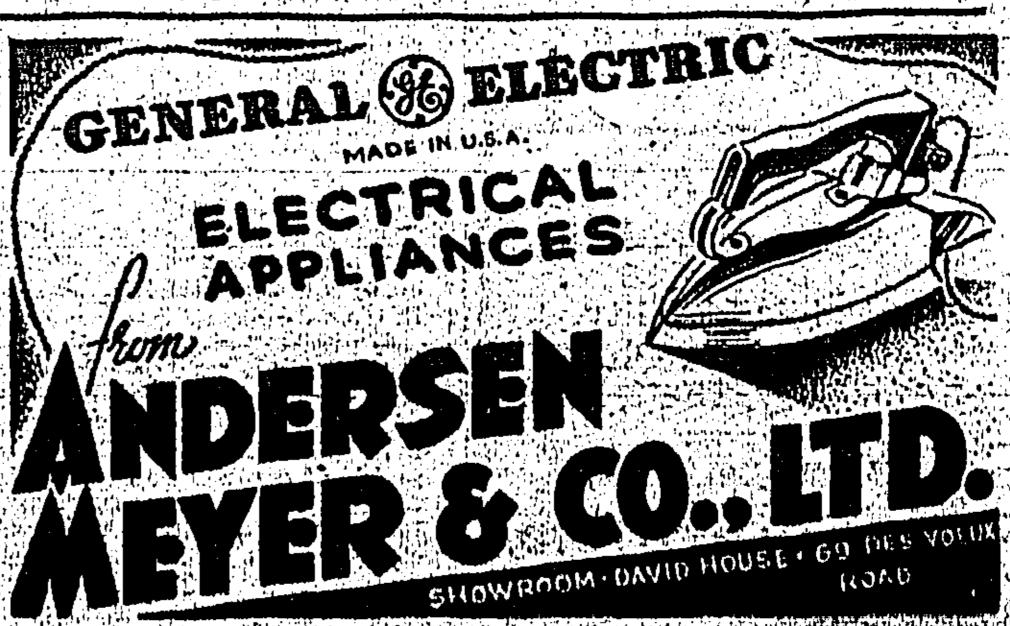

Contrasting Vichy's tactics in Syria and Indo-China, the commentator underlined the manner in which Vichy ordered resistance to its former allies in one case and refused resistance to the Axis in the other.

Marshal Petain only recently re-pledged himself to defend the French Empire, describing it as: a crime not to do so: "Petain has already committed this crime himself in Indo-China,"

The broadcast is significant since hitherto Singapore has: meticulously refrained from introducing Free French propaganda into Indo-China.—Reuter.
